ALL STOCKS LOWER TODAY.

Swansea Only Was Higher-California Weakened Decidedly South Swansea and Carisa Sold Lower.

Trading on the mining exchange was a little heavier this morning and was distributed over no less than eighteen stocks only one of which obtained at better figures than ruled yesterday morning. The market displays much weakness due entirely to the lack of interest by the speculative public. Present trading is almost exclusively for professional accounts and few orders for outside investors are being filled. The one remedy for the present sick market, which has held on for a number of months, is the enforcement of a rule requiring all companies whose stocks are traded in on the board to furnish statements of their financial and physical conditions at

least once every three months.

One evidence of the lack of outside orders is that distinctly speculative low priced stocks like California, May Day, Martha Washington, Star Con, South Swansea, Uncle Sam and Carisa do the bulk of the trading. They are the easiest manipulated, and the present market is a manipulator's market.

With any outside demand for stocks. With any outside demand for stocks he conditions are bullish. Lower rates and smelter working charges are now in effect and the mines were never before as much developed, nor, per haps, in better condition for produc

PAINE'S CELERY COMPOUND

Is the Great Restorer of Health for the Ruler and His Humblest Subject.

Sickness, disease, and suffering respect neither ruler nor subject. The noted and high born have their trials and physical sufferings like those in humbler stations. Social standing and wealth cannot bar the progress of disease when the common rules of health

are violated. Impure blood and weak nerves are responsible for many of the common diseases of life. The experienced physician will tell you that men and women with pure, clear coursing blood and well braced nerves, can never be. come victims of rheumatism, neural-gia, liver troubles, debility, headaches,

or sleeplessness.

It follows ,therefore, that sufferers from any of the aliments referred to, should at once take proper measures to cleanse the blood and feed the weak nervous system with proper nourishment. For the happy accomplishment of

this important work, Paine's Celery Compound is the only safe agent, the one great specific, the only security against deadly disease and death. During these spring days, Paine's Celery Compound guarantees a perfect regu-larity of the bowels, healthy appetite sound sleep, good digestion, pure blood, strong nerves, and clear brain, all of which mean full and robust health.

Mr. E. M. Sutton, ex-mayor of Burlington, Vt., one of the strongest and heartlest advocates of Paine's Celery Company of the Vertical State and Compound in the United States, tells us in the following letter how he keeps well under all circmustances; he say "People have often asked me how "People have often asked me how I managed to keep so well, for although out in nearly all kinds of weather and traveling considerably, I have no aches or sickness. My one answer has been that instead of waiting until I am sick in bed and forced to stop work for a while, whenever I feel out-of-sorts the least bit, I take Paine's Celery Compound, which keeps me well and strong. It is a great deal better in my opinion to take a medicine that keeps opinion to take a medicine that keeps one well, rather than to wait for sick-ness, and then hunt around for a medi-cine or a doctor to cure the sickness. I have been a hearty advocate of Paine's Celery Compound since it was first made, a great many years ago, and have yet to hear of a case in which it fails to fulfil its promises."

Cures When Doctors Fail. Mrs. Frank Chlasson, Patterson, La., writes June 8th, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a sample bottle of Herbine, found it helped me. Then bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine. furnishing such a splendid medicine,
